

DO I NEED ANYTHING NEW FOR LIGHTSPEED?

- **LightSpeed** works with your Lighthouse Unlimited or Limited Dialup Account or any connection less than 1Mb. As a Lighthouse subscriber you can add or remove Lightspeed from your account at any time.
- **LightSpeed** requires 128Mb of RAM in your computer and uses almost any dialup modem from 28.8Kbps on up to V.92 or WiFi. No new hardware is required for your working dialup connection or 802.11 wireless.
- **LightSpeed** is compatible with Windows® (98, ME, 2000, XP or Vista) or Mac (OS X 10.2 or above, 10.4 Intel Mac) and virtually any current browser available on the market, including: Internet Explorer 5.5 or later, Opera, Mozilla or Firefox. Now we also support Macintosh IE 5.2 or Safari 1.2 or higher.

WILL I HAVE HIGH-SPEED SERVICE?

- **Lightspeed** will speed up browsing HTML, XML, DHTML, Text, JavaScript, CSS, GIF, JPEG, Flash, PNG, BMP, PDF, POP3, SMTP, IMAP (Windows only) protocols. LightSpeed is designed to improve connections under 1Mbps by compressing data. LightSpeed enhances your connection for a better experience.

IS LIGHTSPEED HARD TO USE?

- **Lightspeed** works automatically with no user intervention. You can customize the settings to your individual needs if you wish, but there is nothing additional required for you to use it once it is installed.
- **Lightspeed** can be turned on or off right from the icon on the system tray. It's easy to use and very convenient.

HOW DO I GET LIGHTSPEED?

- **Lightspeed** is a client program that is downloaded to your PC. Just call us to sign up and we will send you an email with the link to download the program and your instructions. We will add Lightspeed to your Lighthouse Internet account, but if you don't like LightSpeed, just call us with 30 days to cancel with no added charges.

Lighthouse .Net

Offering V.92/56K Dial-up, Accelerated Dial-up, Nationwide Access, ISDN, DSL, T1 connections, High-speed & Broadband Wireless to the Eastern UP of Michigan

¹ 7X is an average, actual results will vary. Designed to increase browsing and email speeds. No guarantee of actual speeds or performance. Pop up and Ad controls are built in features and no guarantees are offered for these services.

² Pay for 6 months get 3 additional months free on current promotion. Offer subject to availability. Prices subject to change without notice.

³ Local access is defined as a call within the listed exchange. Lighthouse offers no guarantee and holds no liability for telephone charges. Dialing incorrectly or from the wrong exchange or using an improper number can still result in long distance telephone charges.

⁴ Unlimited Access is defined as the ability to connect at anytime. Connections are reset at extended intervals to insure quality of service to all customers. Twenty-four hour continuous online service is not included in these plans. Please contact us for special rates if you require a continuous connection.

Please refer to our A.U.P. and Terms & Conditions for information on use and service at www.lighthouse.net. Some products require contract commitment for service.

- SPEED UP EMAILS¹
- FREE POP UP CONTROLS¹
- FREE AD BLOCKING¹
- AMAZING IMAGE QUALITY¹
- WORKS WITH MACINTOSH!

HOW DOES LIGHTSPEED WORK?

- LightSpeed Accelerator increases the speed of Web browsing over slow Internet connections (i.e. lower-speed wired and wireless broadband (<1 Mbps), satellite, wireless mobile data, dial-up, and 802.11 hotspot connections).
- Typically web pages load 3-7 times faster than without the accelerator.
- Pages that used to take almost 30 seconds to load can be viewed in less than 7 seconds (on average) and sometimes even faster.

LightSpeed Saves Time Loading Pages:

Enhanced Image Quality:

- Using Dynamic Imaging, LightSpeed loads fully usable image gallery pages an average of 14.7 times faster than without acceleration, while delivering near-original final image quality. Older accelerator options can't deliver the quality at these speeds. The NEW LightSpeed delivers better quality at faster speeds than ever before!
